## The Tone of the New Edison

Musical lovers have hoped for years that some day a genius would make possible an artificial tone that would actually sound like the original. This Mr. Edison has done, at last in the New Edison Diamond Disc Phonograph. With the wonderful Diamond Stylus (no needles to change) he has created a tone so true, so life-like, that one can scarcely distinguish it from the original.

## A Revelation:

This seems almost too good to be true. Come in and hear it. Judge for yourself. We will be glad to play the New Edison for you without obligation. It will be a revelation to you as it has been to others.

## PEACE PLANS

Are to Be Talked at Conference of Neutral Nations during Christmas Season.

(BY ASSOCIATED PRESS.)  
WASHINGTON, Nov. 12.—David Starr Jordan, president of Leland Stanford University and head of the international peace congress recently held in San Francisco, told President Wilson today that a quasi-official meeting of neutral nations probably will be held sometime before Christmas either at The Hague, Bern or Copenhagen to attempt to bring about peace in Europe. Dr. Jordan conveyed to the president a resolution from the peace congress urging him to co-operate with other neutrals in calling such a conference. The Christmas season is the natural time to talk peace, Dr. Jordan declared, and therefore he is expecting the plans of peace advocates to take definite form about that time.

## Sure Way To Get Rid Of Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in with the finger tips.  
By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.  
You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

## Declares Apostle Russell in a Sermon at His Court House Meeting Here.

At the court house last evening the congregation was large and very much edified by the discourse of Apostle Russell, whose theme was "Sanctification."

The real meaning of the word being "to make free from sin," and he showed by the Scriptures that the only way for a sinner to be liberated from the sins of his past life was to be baptized by immersion, as stated on the day of Pentecost and subsequent times, and that when a person was thus baptized by a man holding divine priesthood his past sins were pardoned, no matter how dark a class of sins they may have been and he produced proof to show that in the New Testament times even murderers were so pardoned, and then they were told to grow in grace and thus they would eventually, by adding to their faith, virtue, temperance, patience, brotherly kindness, godliness and charity reach the measure and stature by the fullness of Christ and by that means they would eventually become wholly sanctified and saved at the end of the Christian race, and not before it.

He compared the great change made in the lives of those who thus took upon them the yoke of Christ, and those who took the yoke of man. The former in their baptism were freed from sin and then through the laying on of the hands of the Melchisedek priesthood the Holy Ghost came from God and took up his abode within the person so baptized and God took away all their evil habits, selfishness and the spirit of god abiding with them; they did not fall by the wayside and go back into their old habits only in exceptional cases, and they they always agreed with Christ in the fact that His yoke was easy and light. But on the contrary if a person fitted on the yoke of man, such as that which Saul of Tarsus tried which was really the mourner's bench for seventy-two long hours without eating or drinking, and then abandoned that he might be baptized and have his sins washed away. Acts 22:16, they would find as is evidenced in every hamlet and city in the country that when the excitement was over and Hamiltonian Sundays were gathering the fleeces of other sheep, their wool was scarce and their yoke so heavy that in less than a year twenty-six hundred would be sifted down to the hundred part and sometimes less and the deserters were loud in their acclamations that the yoke they picked up was only home-made and they refused to carry it again.

But when the fleece grows out again the annual shearer comes along and the poor creatures are induced to take another yoke and shed their coat. And so it goes on from year to year in what the Bible calls "A way that seemeth right unto a man, but the end thereof are the ways of death." Often when the home-made yoke is put on it makes the bearer so stagger that they fulfill the prophecy of Isaiah 28:14, and goes through such acrobatic maneuvers that when that God leaves her she rushes to meet those who have seen or heard of their actions.

Mr. Russell asked if the spirit of God lowered or elevated humanity? Thus said he it is easily seen that those shouting acrobats are not of the kingdom that humanity were advised to seek.

Subject tonight, "Should the Clergy Get a Salary of Money?" Interest is excellent and the questions very entertaining.

## FORMER

(Continued from page 1.)

Dr. Gorick's agitatory propaganda carried on in this country, but has refrained until now from taking counter measures, being aware of the disgrace brought about by the fact that a former consul officer has broken in such the faith and allegiance to his fatherland.

In view, however, of his statements to the press, which contain the strongest accusation against the representatives of Austro-Hungary, the embassy must emphatically declare these accusations as false and absolutely baseless."

## MINERS LOOK OUT

When you first notice a cough—even that little tickling in the throat, which some think is a "mere cold," it may mean serious trouble for you, because the dust of the mines often brings bronchitis, pneumonia or consumption—even to men stronger than you.

What you need—and need at once—is a bottle of Scott's Emulsion to check the cough and help the linings of the bronchial passages to prevent sickness and loss of "time."

In Scott's Emulsion you get pure cod liver oil blended with glycerine and hypophosphites which quickly improves your blood, fortifies your lungs and builds up your strength. It is free from alcohol. Physicians prescribe it every day. Beware of substitutes. Scott & Bowne, Bloomfield, N. J. 15-2
